

Mondéco ESD TZ (8 mm)

A hard wearing, decorative, high temperature resistant, steam cleanable antistatic polyurethane terrazzo finish.

Polygiene®:

Contains a silver ion antimicrobial additive proven to inhibit the growth of most types of harmful bacteria

Attractive:

Extensive and flexible design to deliver the wow-factor underfoot.

Temperature Resistant:

Resistant to temperatures of up to 120°C and suitable for steam cleaning.

Highly Chemical Resistant:

Excellent all round chemical resistance.

Anti-Static:

Meets EN IEC 61340 anti-static requirements.

Cream

Tile Red

Dark Green

The applied colours may differ from the examples shown. For a full colour chart and samples, contact your local Flowcrete office.

Technical Profile*

TEMPERATURE RESISTANCE (at 9 mm thickness)				
Up to 120°C (intermittent) or -40°C to 105°C (sustained)				
COEFFICIENT OF THERMAL EXPANSION				
ASTM C531	1.7×10 ⁻⁵	⁵°C		
THERMAL CONDUCTIVITY				
BS 874	1.20 W/r	m°C		
ELECTRICAL RESISTANCE				
EN IEC 61340-5-1	5×104-	1×10° Ω		
REACTION TO FIRE				
EN 13501-1	B _{fl} -s1			
WEAR RESISTANCE				
EN 13892-4	Max. wea	ar depth <	50 µm	
BOND STRENGTH				
EN 13892-8	>2.0 N/mm ²			
IMPACT RESISTANCE				
EN ISO 6272	20 Nm			
COMPRESSIVE STRENGTH				
EN 13892-2	>55 N/mm²			
WATER PERMEABILITY				
Karsten test	Nil (Impermeable)			
VAPOUR PERMEABILITY				
2 g / m² / 8mm / 24 hrs				
SLIP RESISTANCE*** (in accordance with HSE and UKSRG guidelines)				
BS 7976-2 (typical values for 4-S rubber slider)	Dry >40 low slip potential			
BS 8204-6/FERFA				
Туре 8				
SPEED OF CURE**	10°C	20°C	30°C	
Light Traffic	24 hrs	16 hrs	10 hrs	
Full Traffic	72 hrs	48 hrs	36 hrs	
Full Chemical Cure	12 days	7 days	7 days	

C and at 50% Relative Humidity.

*** The slipperiness of flooring materials can change significantly, due to the installation process, after short periods of use, due to inappropriate maintenance, longer-term wear and/ or surface contaminants (wet or dry). Textured systems are recommended to meet slip resistance value requirement for wet conditions and/ or surface contaminants (wet or dry) - please contact our Technical Advisors for further details and specifications.

Model Specification

System	Mondéco ESD TZ
Finish	Satin / Matte

Preparatory work and application in accordance with manufacturer's instructions.

Products Included In This System

Primer	Flowprime @ 0.25 kg/m ² Conductive Grid of 10 mm wide copper tape.
Primer	Flowprime @ 0.25 kg/m ² with Conductive Scatter @ ~2 kg/m ²
Topping	Mondéco ESD TZ (average density 2.1 kg/l) @ 21 kg/m ² (Applied at 10 mm, ground down to 8 mm)
Grout	Flowfresh Grout @ 0.1 kg/m ²
Sealers (1 st Layer)	ESD PU Base Coat @ 0.05 kg/m²
Sealers (2 nd Layer)	ESD PU Top Coat @ 0.05 kg/m ²

Detailed application instructions are available upon request.

Substrate Requirements

Concrete or screed substrate should be a minimum of 25 N/mm², free from laitance, dust and other contamination. The substrate should be dry to 75% RH as per BS8203 and free from rising damp and ground water pressure. If no damp proof membrane is present Hydraseal DPM can be incorporated directly beneath the Mondéco ESD TZ system.

Installation Service

The installation must be carried out by a Flowcrete approved contractor with a documented quality assurance scheme. Obtain details of our approved contractors by contacting our customer service team or enquiring via our website www.flowcrete.co.uk.

Aftercare, Cleaning & Maintenance

Clean regularly using a single or double headed rotary scrubber drier in conjunction with a mildly alkaline detergent.

Environmental Considerations

The finished system is assessed as nonhazardous to health and the environment. The long service life and seamless surface reduce the need for repairs, maintenance and cleaning. Environmental and health considerations are controlled during manufacture and application of the products by Flowcrete staff and fully trained and experienced contractors.

Microbial / Fungal Resistance

The Polygiene antimicrobial additive incorporated into Mondéco ESD TZ provides control of most bacteria and fungi which come into contact with the floor.

Antimicrobial Active Substance	Silver biocide
Tested	ISO 22196 / JIS Z2801

Note

Mondéco ESD TZ is not colour fast and may change colour over time (exhibits a yellowing effect). Colour change depends on the UV light and heat levels present and hence the rate of change cannot be predicted. This is more noticeable in light colours and blues, but does not compromise the product's flexibility or chemical resistance. Intensively coloured products (e.g. hair colourants, medical disinfectants etc.) and plasticizer migration (e.g. from rubber tyres) can lead to irreversible discolouration in the surface.

Flowcrete's products are guaranteed against defective materials and manufacture and are sold subject to its standard Terms and Conditions of Sale, copies of which can be obtained on request. Any suggested practices or installation specifications for the composite floor or wall system (as opposed to individual product performance specifications) included in this communication (or any other) from Flowcrete UK Ltd constitute potential options only and do not constitute nor replace professional advice in such regard. Flowcrete UK Ltd recommends any customer seek independent advice from a qualified consultant prior to reaching any decision on design, installation or otherwise.
